

Engineering and Aerospace Sciences Academy Engineering Fair and Fundraiser

Where:

**Evergreen Space Museum
(The Falls Event Center)
500 NE Captain Michael King Smith
Way
McMinnville, Oregon**

When:

Saturday, May 11, 1:00 – 4:00pm

What:

We hope you will attend this event, and help support the outstanding work our students have put into these amazing projects.

The Engineering and Aerospace Sciences Academy (EASA) is a career pathway program of **McMinnville High School**.

EASA focuses on core academics, engineering and technical skills, preparing students for careers in engineering, technology and science.

This event will highlight class engineering projects including a variety of *automata, pneumatic, robotic, simple machine-based projects, a simulated solar powered Mars rover station, a hovercraft with a base and skirt cut with a water jet, an automated smart house, dueling aluminum can crushing machines, a system for monitoring parking garage traffic, a chicken coop upgraded with automated systems, and a planter bag removal machine.*

There will also be an opportunity to contribute to specific financial needs of this program.
