Wildlife Ecology & Conservation	Chad DeYoung	FW251	Principles of Wildlife Conservation (<i>MHCC</i>)	3	Semester 2

NOTE: Eligibility requirements include teacher approval, C or higher grade in the MHS class at time of registration and annual fee payment of \$30.00 for Chemeketa CCN classes taken for the school year. Check student registration status directly with teacher/s. Chemeketa CCN registration for eligible students occurs three times a year, October, December and April and is done completely through the high school. Other participating colleges have different timelines and processes. Students cannot register on their own nor do they register at the

colleges. Taking the MHS class DOES NOT mean they are registered to receive the college credit.
